

23RD AOTEAROA NEW ZEALAND SCOUT JAMBOREE 2023-24

MOBILE PHONES AT THE JAMBOREE

The Jamboree Leadership Team (JLT) have determined that the upcoming 23rd Aotearoa New Zealand Scout Jamboree (NZ23 Jamboree) will be fully digital and have site-wide Wi-Fi capability for the first time at a Jamboree.

All communications to participants at the Jamboree will be via digital platforms onsite - display screens and online platforms such as dedicated Facebook and YouTube channels.

YES, there will be the availability to recharge mobile devices, and we are working on a payment scheme. Last time it was - swap a badge.

We are planning a Scout/Venturer aged and Troop Leader promotion campaign leading to the Jamboree.

The NZ23 Jamboree encompasses a sustainability approach of less paper, such as onsite printed newsletters/notices.

We are leaving it up to Troops to bring or not bring mobile devices, and we will provide the technology to enable those who do to interact with Jamboree on a digital level.
